All electrical installations meet Australian standards.

All Electrical Installations
Meet Australian Standards.

Minimise transport costs, as all
containers are easily transportable

Flexible solutions for all your needs.

endless design options available

Solid Construction

High quality steel doors, solid cargo worthy shipping container, and security bars (or mesh) installed on all windows for added security.

Energy Efficient

Window fitted blinds block-out most sunlight, while general heat insulated walls reduce external noise and heat.

Endless Design Options Available

Available in 10', 20', and 40', there is a Porta-Camp to suit your requirements. Add showers, toilets, kitchens, eating areas, air-conditioning and more.

Modular Solutions

Porta-Camp buildings may be linked together in almost any configuration and partition walls added to create a specific solution tailored to your needs.
